— DEPARTMENT OF —
REVENUE
— STATE OF MISSISSIPPI —

To the Governor, Legislature, and the People of Mississippi:

In 1916, the Mississippi Legislature created the Board of State Tax Commissioners. This Board's sole purpose was to equalize the values of the various classes of property subject to property tax. At that time, the state received property taxes which were a significant portion of the state's revenue. The valuations of property across the state were fundamental to the accurate reporting and collection of the property tax.

As the years passed, collection of the state's income tax and a number of privilege taxes were added to the responsibilities of the State Tax Commissioners. The Board was re-organized in 1932 in order to address its various duties, including collection of the state's new sales tax which was one of the first retail sales tax levies enacted in the United States.

100 years later, the agency has been re-organized a few more times, had a name change, and added the collection of many numerous taxes, duties and responsibilities. Throughout the years, the Department of Revenue has remained focused on our mission to collect revenue and to fairly administer the ad valorem, revenue, local option, and motor vehicle laws of Mississippi. The Department continues its commitment to implementing best practices in agency processes and continually improving its technology platforms to provide long-term benefits for the citizens of the State of Mississippi.

We are pleased to submit this Annual Report for the Fiscal Year ending June 30, 2016, and hope that it provides you with helpful information.

Highlights of past 100 Years

- The Board of State Tax Commissioners was created in 1916 by the legislature. The primary responsibility of the board was to ensure equality in the assessment of property taxes statewide.
- As the years passed, collection of certain privilege fees and taxes were added to the responsibilities of the State Tax Commissioners such as income tax.
- The income tax division of the State Tax Commission was authorized under the provisions of Chapter 132, Laws 1924, Chapter 72, Laws 1924, and commenced to function as such on May 1, 1924. Before 1924, the state's income tax enacted in 1912 was collected by the sheriff's of various counties.
- The Board was re-organized in 1932 in order to address its various duties including collection of the new sales tax which was one of the first retail sales tax levies enacted in the United States.
- Sales tax tokens were introduced in 1936 so that sales tax could be paid with a tenth of a cent or a half of a penny. Initially, 8 million one-mill aluminum tokens and 2 million five-mill brass tokens were purchased and distributed by the State Tax Commission. The original metal tokens were changed to fibre due to the shortage of metal at the beginning of World War II. Later, a white plastic translucent token replaced the one-mill sales token and a blue plastic token replaced the five-mill sales token. (Pictures of tax tokens can be seen throughout this annual report including the one pictured below.)
- The Mississippi Local Option Alcoholic Beverage Control Law was approved May 21, 1966, to take effect July 1, 1966, thus ending 59 years of statewide prohibition in the State of Mississippi. For the last 50 years the State Tax Commission has administered the enforcement, permitting, purchasing and distribution of all alcoholic beverages under this law.
- An act of the 2009 Legislature went into effect July 1, 2010 reorganizing the State Tax Commission. The reorganization placed all of the administrative functions of the agency known as the State Tax Commission into the Department of Revenue. Authority over the final administrative appeals was transferred to the independent Board of Tax Appeals.

Sales Tax Supports the General Fund, Education, Municipalities, and Special Funds

All sales of tangible personal property in the State of Mississippi are subject to the regular retail trade rate of sales tax (7%) unless law exempts the item or provides a reduced rate of tax for an item. The tax is based on gross proceeds of sales or gross income, depending on the type of business. Additionally, many services are subject to sales tax. Installation labor is taxable when connected to the sale of tangible personal property.

Each month, the DOR distributes and transfers the sales tax collected during the prior month to various Treasury Funds. The State General Fund receives the largest portion; however, Sales Tax is also an important revenue source for Municipal Governments and for Education in our state. Money transferred to the Motor Vehicle Ad Valorem Reduction Fund is used to reimburse the counties for the credit on motor vehicle license plates annually provided to each vehicle owner.

Transfer to Cities and Counties from Special Tax Collections

Most Special Taxes are imposed on the gross receipts of hotels, motels, restaurants and/or bars within certain cities or counties; however, the cities of Jackson and Tupelo impose a tax on retail sales and services subject to the general rate of state sales tax with certain exceptions. Revenues are dedicated to certain purposes as authorized by the enacting legislation and the tax rates vary by location. All special taxes are in addition to the regular Sales Tax. More information about these taxes can be found by visiting our website.

DIVISION OF INCOME TAX.

This section of the Tax Commission was authorized under the provisions of Chapter 132, Laws 1924, Chapter 72, Laws 1924, and commenced to function as such on May 1, 1924. You will recall that the above mentioned Chapter 132 made it incumbent on the Commissioner to collect the State Income Taxes due under the provisions of the "1912 Law," or Chapter 101, Laws 1912. When this office assumed that responsibility, there was not a vestige of records, list of taxpayers, or anything which would assist in any way the collection of income taxes due. Arrangement was made, however, whereby the Commission could secure from the office of the Collector of Internal Revenue, in accordance with the Federal Law, a list of taxpayers who filed returns with the Federal Government in Mississippi for the calendar year 1922. This applied to individuals only. The record of corporations and partnerships had to be compiled from an independent source and at a later date. It became necessary to break the record of individuals into the proper County arrangement for the purpose of intelligently accounting to you for the monies collected.

The forms on which to make the returns to the Commissioner had to be designed, printed, stuffed into envelopes and mailed to the taxpayers that they might make the return and that all returns filed might be uniform as to size and volume, information and general contents. This activity required the time up to July 1, 1924. Then the returns commenced to arrive, and it was necessary to handle the paid returns and the returns on which no tax was due so that due credit could be given a taxpayer for filing a return, and he not be embarrassed and bothered with second requests when he had already filed.

Income Taxes Support the State General Fund

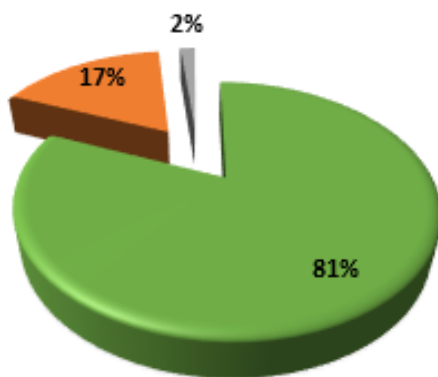

Mississippi enacted the state's first income tax in 1912. At that time, the tax rate was ½ of 1% imposed on all net income in excess of \$2,500. Over 100 years later, the laws have been amended numerous times providing exemptions, deductions, exclusions, inclusions and various filing status classifications. Income tax is imposed on the net taxable income of individuals, corporations, estates and trusts.

The chart below provides the amounts transferred to the State's General Fund and which revenues are utilized by other agencies to provide services to the citizens of Mississippi, such as education and public safety.

Severance Taxes

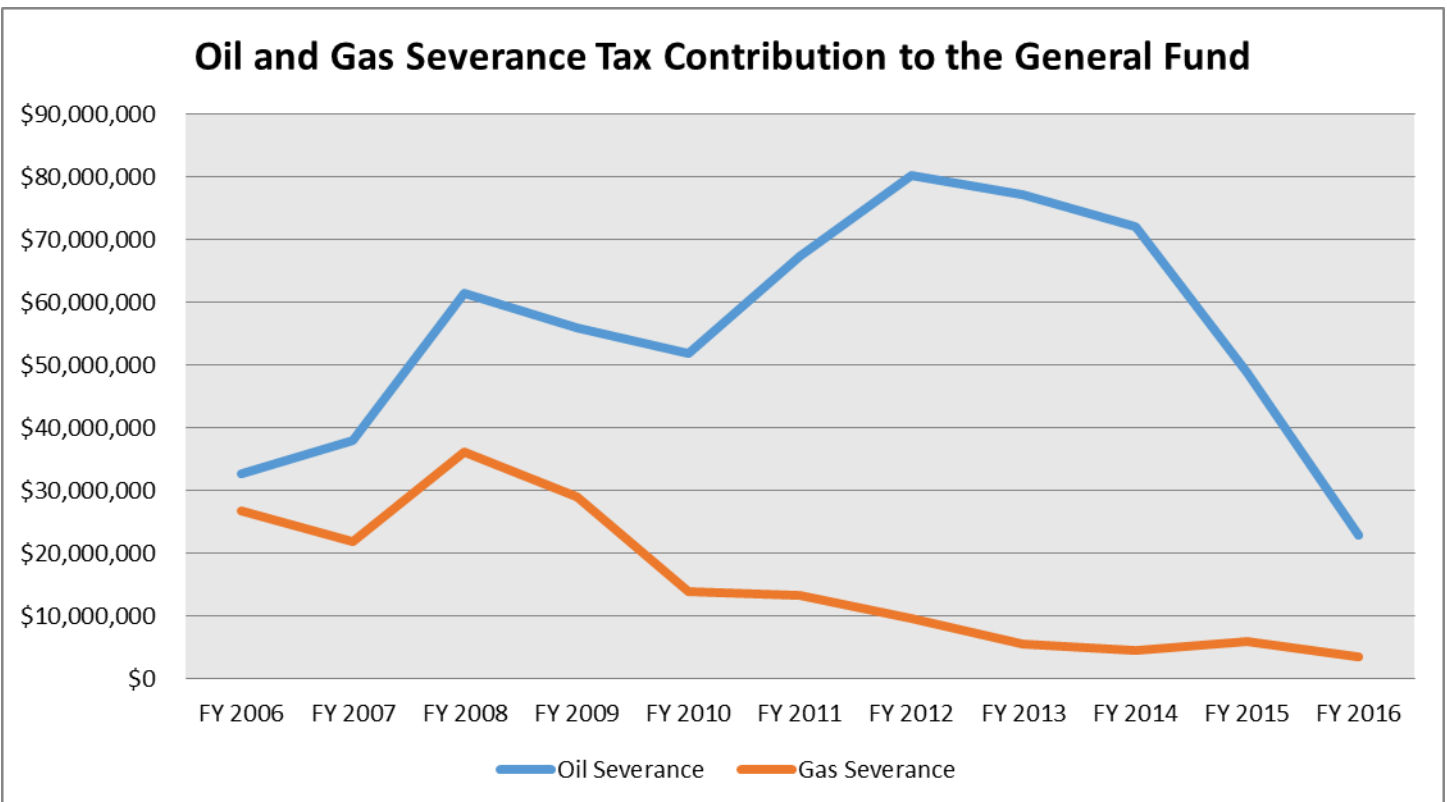

Severance Taxes are imposed on persons who remove or extract certain natural resources from within the soil or waters of Mississippi. Oil and Gas are taxed at 6% of the value determined at the point of production. The tax rates for Timber Severance are determined upon type, quantity or weight of timber products produced and vary by the type of product.

ABC Collections and Transfers

The Mississippi Alcoholic Beverage Control was created for the purpose of enforcing the liquor laws and for the distribution of alcohol products in this state. Along with 17 other states, Mississippi is a control state meaning it exercises complete control over the wholesale distribution of alcoholic beverages. All legal alcohol entering Mississippi from manufacturers must be shipped directly to the ABC's Liquor Distribution Center from which ABC sells the products to licensed retailers for ultimate sale to the public.

An alcoholic beverage is either a distilled spirit or a wine product that contains more than 5% alcohol by weight. Beer and light wine products are not included and are not distributed by the ABC. The excise tax on sparkling wine and champagne is \$1.00 per gallon, other wines are 35 cents per gallon, and distilled spirits are \$2.50 per gallon. Additionally, all alcoholic beverage products are subject to an additional 27½% markup on the wholesale purchase of alcoholic beverages. A permit is required to sell alcohol in this state.

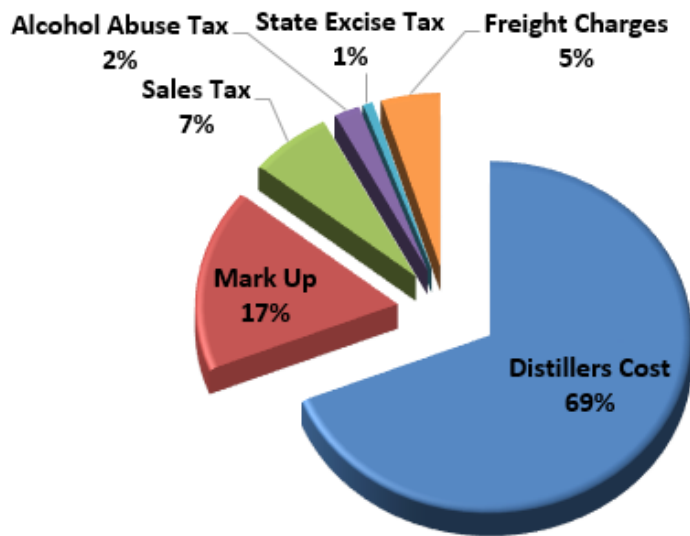

The below collections result from the operations of the Liquor Distribution Center and the licensing of retail businesses.

* For Fiscal Year 2015 the Municipal share column reports both the 5/14ths and the 9/14ths distributive share.

This schedule is based on month of collection.

Section 27-5-101 sets forth the distribution of the taxes to the counties from gasoline and special fuels. The counties share is derived from the “base” rate of tax. For gasoline, the base tax is the first 7 cents per gallon, and for un-dyed diesel, the base rate is the first 10 cents per gallon. After specified transfers are made from the base tax collections, 5/14ths of the remainder is distributed to the counties. The law provides that a portion of the counties share is shared with the municipalities within that county.

The following is the distribution of 5/14ths between the counties:

1. Pay each county \$190,000 annually. The municipalities share is paid from the \$190,000.
2. Annually, the remainder is divided according to the following formula (This split is listed as “surplus” in the above chart):
 - 1/3 share split evenly among all the counties;
 - 1/3 share split based upon the population of each county;
 - 1/3 share split based on the square miles of each county.

The 9/14ths share provides a monthly transfer of \$83,333.33 to the Municipal Aid Fund; 50% of the tax on gasoline collected in the three coastal counties is returned to those counties for Road Protection; amounts specified to retire the bond sinking funds; and the remainder for the benefit of the State Highway Fund.

The additional tax is **11 cents** a gallon on gas and **8 cents a gallon** on diesel. The amount of tax collections from the first 2 cents per gallon of the additional tax is used exclusively for the construction, reconstruction and maintenance of highways or the payment of interest and principal on bonds. Of the remaining additional tax:

- 23 1/4% is for the State Aid Road Fund
- The remainder to the State Highway Fund

Quantities and Taxes Collected by Fuel Type

The reporting method for the monthly and fiscal year reports for Petroleum Tax has changed. Starting from the September 2014 filing period going forward, the total due will no longer equal the total collected for each period. The Gross Gallons, Exempt Sales, 2% Allowance, Net Taxable Gallons, Government Exemptions, and Tax Due will reflect the return totals for the return period. The Collections will reflect the total collected during that period.

All motor fuels including gasoline, diesel, kerosene, fuel oil, compressed gas, natural gas and lubricating oil, are subject to Petroleum Excise Taxes. These taxes are collected from petroleum product distributors, interstate motor carriers, and persons using petroleum products.

IFTA is a compact of the 48 contiguous States, the IRS, the 10 Canadian provinces, and the federal government of Canada.

A motor carrier licensed under IFTA reports to its home state all miles traveled in all jurisdictions, total fuel consumed, and the total fuel purchased. IFTA apportions tax collections among the states based on miles traveled and the fuel used by carriers within each state according to each state's tax rates.

THE DOR collects the taxes from Mississippi based licensees on behalf of all member jurisdictions and makes a payment to IFTA for taxes collected for those jurisdictions. Likewise, the DOR receives payments from other states who collect Mississippi taxes from their licensees.

Mississippi is a payout state. That means carriers purchase more fuel in the State than they consume and why the amount "collected" is a negative.
