Key to Data Fields for the Fiduciary Schedule K-1 for 2010

The form number is 81-132.

Page 1:

The top right registration mark is located at the top right corner of grid box x=80, y=4.

The lower left corner of the scanband must be located at the lower left and bottom of grid space x=6, y=13.

"MS" to the left of the header begins at grid 27/4 and ends at grid 28/4, and is in Courier 12 pt.

The following is the labeling and the description of the items to be included in the Scanband of this form. The beginning and ending data positions are included in one of the templates for the form. The field length is included in this key for each data position. Grid positioning given is from the first grid space to the last grid space included in a data field. (Example 22/9 to 29/9 is 8 grid spaces) You should use this information to position the data on the returns. Do not use a grid overlay to determine the positions from a printed paper form. The field length specified assumes using a **Courier 12 point font**, which is the required font. In the Scanband, the name and address fields should be left justified. All other fields should be right justified. **All fields in the scanband must be filled. If a field is Blank in the scanband, your software should fill the field using a "0" (zero) for numeric fields and an "N" for alpha or alphanumeric fields.** The money field in the scanband should not contain any commas, cents, decimals or other formatting information except for the negative signs (-) as a leading indicator for any negative amount. The amounts in the body of the return should contain commas. Example -123,456 in the body of the form would appear as -123456 in the scanband.

The money and percentage fields in the scanband should not contain any commas, cents, decimals or other formatting information except for the negative signs (-) as a leading indicator for any negative amount. The percentage field should assume two decimal places. The field should be right filled with zeros if necessary. For example, 62.95% should be input as 6295; 62% should be input as 6200. The amount and percentage in the body of the return should contain decimals and commas. Example -123,456 in the body of the form would appear as -123456 in the scanband.
